

WEDNESDAY SEPTEMBER 28. 1743.

Yesterday arriv'd a Mail from Holland, and another from Flanders.

Petersburgh, September 14.

THIS City has been, for some Days, in the utmost Consternation, on account of the Numbers of Persons concern'd in the late Conspiracy. It is now something more than a Fortnight ago, that the Committee appointed to examine into that Affair, made their Report to her Imperial Ma-

esty. A few Days after, the Czarina appointed an extraordinary Assembly of the Senate, where she appear'd in Person; and rising from her Throne, acquainted that august Assembly with the Occasion of their Meeting. Her Speech, upon this Occasion, drew Tears from the Eyes of all who heard it. She open'd it with observing, That notwithstanding her Right to the Imperial Diadem, she did not assume it till call'd thereto by the Voice of the whole Nation; that from the Time she was rais'd to the Imperial Dignity, she had ever studied the Welfare of her Subjects; which appear'd by her bringing the late War to so glorious a Period, without raising so much as a Penny by a new Tax; that it was therefore surprizing to her, that there could be among her Subjects any who were desirous of overturning so just, so gentle an Administration, much less of practising against the Person of their Prince, who, in every Judgment remember'd Mercy; and who had always shewn, as she purpos'd to shew, that Clemency was the only Pre-rogative she meant to exercise, in Right of her Imperial Dignity; but that there were such Persons, the Report should be read to them would fully prove, from their Examinations, Confessions, Letters address'd to, and written by them, with every other Kind of Evidence, that, perhaps, was ever produced in a Court of Justice. The whole Process was then read, and the original Papers laid before the Senate, where thereupon pronounced Sentence of Death upon 25 Persons of Distinction, of both Sexes; but it is believ'd her Imperial Majesty will content herself with banishing them into Siberia. At the same time, 45 Valet de Chambres, Footmen, and under Officers, receiv'd their several Sentences for the Share they had in this Traitorous Affair, which were executed last Wednesday, by several Kinds of Corporal Punishment; besides which, they are subjected to perpetual Banishment. General Keith is actually sail'd for Sweden with 30 Gallies, and 15,000 Men on board; besides which, the Czarina has promis'd his Swedish Majesty a very considerable Subsidy, during the continuance of the War.

Naples, September 10. According to the last Letters from Calabria, we are assur'd, that from the 24th to the 28th of last Month, there did not die, in Reggio and the Suburbs, above 111 Persons, and that there were in the Hospitals above 200 Sick; but as there is great Reason to believe, that many Persons infected with the Distemper had retired into the adjacent Villages, Count Mahoni has thought proper to alter the Circuit of his Lines, in order to prevent the Malady from spreading itself into the other Parts of the Province. He is still under great Apprehensions, as well on this account, as the Danger there is of embarking at last in the present War, against which all the Nobility of the Kingdom have remonstrated warmly; and have even been so far, as to acquaint his Majesty, that they cannot be answerable for the Consequences, if the Germans should invade his Dominions.

Genoa, September 7. According to all Appearance, the Spaniards only, but the French, are in full March into Piedmont; and, it is thought, will begin with besieging Demont, a strong Town in the Marquisate of Saluces; which is the more probable, since a Train of Pieces of Battering Cannon has been lately sent from Grenoble.

Rome, September 14. The English Squadron, detach'd Admiral Matthews to cruize upon our Coast, still continues there, which gives us very great Uneasiness. The Commodore lately sent a Letter to the Governor of the Venetian Republic, to inform him, that if he suffer'd the Venetian Artillery and Ammunition to be carried out of the Ecclesiastical State, he should find himself oblig'd to take Reprisals, and to interrupt their Commerce, by sailing, without Distinction, all Vessels bound to or from the Ports in the Papal Territories. The famous Captain Lambertini, who has been long in the Service of the Queen of Hungary, has lately form'd a Scheme in Marble of a Vistal, which has been excessively

admire'd; and has form'd a Model for a Bust of the present Pope for Cardinal Colonna, which is esteem'd a Masterpiece by the best Judges in this City. The Pope held on Thursday last another Consistory, in which he gave their Hats to the new Cardinals; who, in the Evening, went in a Body to pay their Compliments to the Chevalier de St. George, which occasions many Speculations. His Holiness in a Latin Harangue which he made in the last Consistory, commends the pious Humility of M. Palavicini, Archbishop of Thebes, who has constantly refused the Purple, tho' frequently offer'd him.

Florence, September 14. The Enquiry that was made a few Days ago into the Conduct of all our Printers, threw the Persons who exercise that Trade in this City into the utmost Consternation. It ended, however, in causing only two of them to be arrested, for having spoke a little too freely, and for sending the Copies of some Books they are printing to the Inquisition for its Approbation, notwithstanding they have been forbid that Practice in express Terms.

From the Head-Quarters of the Austrians near Spire, September 28. The Allied Army, after three Days March, arriv'd Yesterday, in four Columns from Worms, in the Neighbourhood of this City. We are to rest this Day, but we are not at all certain whether we may not march To-morrow, as there is a great deal of Bread baking for us at Heidelberg and Spire. We have certain Intelligence, that Major-General Mentzel, being detach'd with 600 Hussars to Sar Lewis, had pass'd by Neustadt, and at a certain Distance between that Place and Landau, had caus'd his Hussars to dismount, in hopes of burning a large Magazine which the Enemy had there of Straw and Forage, which is in the Outworks of the Place. He pass'd happily Five Centinels, and just as he came to the Sixth, at the Distance of about 15 Paces from the Magazine, a Dog bark'd, which alarm'd the French, and render'd his Design abortive. The Night being very dark, the brave Mentzel had the Misfortune to fall from his Horse, and thereby hurt his Leg very much; his Hussars, however, took him up, and carried him off upon their Shoulders; retiring, however, in so good Order, as not to lose a Man. When he came to Neustadt, he caus'd his Wound to be dress'd, and then pursu'd his Journey to Kayzerlautern, where he is already arriv'd. We are in hopes this Affair will have no ill Consequences to the General, since we are assur'd that his Leg is bruise'd only, and not broken.

Hague, October 5. According to our last Advices from the Army of Prince Charles of Lorraine, dated the 13d of last Month, his Highness had receiv'd a great Supply of Boats and Pontons, and was actually employ'd in laying two Bridges over the Rhine, which he propos'd to pass with all his Army; while the Troops, in Possession of the Island of Rhinnsack, attack'd the Head of the Bridge which the French still preserve there. It is confirm'd from Worms, that the French abandon their Lines behind the Queich with the greatest Precipitation, and that Colonel Mentzel attack'd their Rear-Guard, and did a great deal of Mischief. A considerable Body of Hussars, and other Irregular Troops, from the Army of the Allies, have actually taken Post in the Neighbourhood of Landau, inasmuch, that the Place is in a manner block'd up, and all the Country, between the Queich and the Lauter, laid under Contribution. Our Minister at the Court of Denmark, in conjunction with the Minister of his Britannick Majesty, have interposed in favour of Sweden, and received such an Answer, as gives Hopes of an Accommodation. Her Majesty of Hungary has given a new and extraordinary Proof of her Moderation, by directing, that on the Surrender of Ingoldstadt, all the Jewels, and other rich Effects belonging to the House of Bavaria, together with the Archives of the Electorate, should be immediately transmitted to Franckfort, and deliver'd to his Imperial Majesty.

L O N D O N.

The Czarina has resolv'd to send an Ambassador Extraordinary to Copenhagen, in order to offer her Mediation for adjusting all the Differences between that Court and the Court of Stockholm; and, in case her good Offices are refused, it is believ'd her Imperial Majesty will act with all the Forces of her Empire in favour of Sweden.

The 12th Inst. being the Day the Dyet of Sweden rose, they heard a Sermon, preach'd by Bishop Lagerlof, from these Words: 'The Lord is my Strength and my Shield, my Heart trusted in him, and I am helped; therefore my Heart greatly rejoiceth, and with my Song will I praise him.' Afterwards the four Orders complimented the King by their Speaker; whose Compliment was answer'd by Count Gillenbourg.

Concerning Gleets and Seminal Weakness of all Kinds.

ALL judicious Physicians and Surgeons

allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weakness, whether occasion'd by too severe purging for Venereal Injuries, violent Strains, Pollutio sui, or any other Cause whatever; and that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, infect the whole Nervous System, often bring on Hectick Heats, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diabety, Incontinency of Urine, or Difficulty of holding their Urine, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assuredly may, by using only a small Quantity of a transcendent BALSAMICK RESTRICTIVE ELECTUARY, now published for a general Good, after having for many Years been experienced never once to fail perfectly curing the most Stubborn Gleet known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal Vessels, and Urinary Passages, which almost instantly cures, brings to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weakness and Difficulty of Constitution of any Kind, and particularly strengthening the Back, Reins, Seminal and Urinary Vessels to an immovable Degree, inasmuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out, and all Persons fatigu'd with Gleet or Seminal Weakness of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surpris'd at it.

When a Medicine will infallibly accomplish such a speedy and perfect Cure of such difficult Maladies, as Gleet and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and All who ever took it for any of the above-mentioned Purposes have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Effectiveness one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. RADCLIFFE'S Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whosoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is entirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamick Electuary.
